

## Al-on-Demand Winter School

We are excited to share that the **Al-on-Demand Winter School and AI & Robotics 2024** will start soon, from December 9-13, at Örebro University, Sweden.

This event is a one-of-a-kind learning experience, bringing together PhD students to explore cutting-edge advancements in AI and robotics. Led by renowned international experts, the programme combines insightful lectures with practical, hands-on labs to help participants bridge the gap between theory and application.

Designed to equip aspiring researchers with the tools and knowledge to drive innovation in their fields, the Winter School offers a unique platform to learn, collaborate, and grow.

This promises to be an unforgettable journey of discovery and inspiration.

## Join our community

Our platform offers AI projects and the wider AI community the tools and connections needed to thrive.

Develop and deploy AI components, share research outputs and events, and access a rich repository of educational resources, datasets, and expert insights. Connect with peers from academia, industry, and EU bodies in a collaborative environment designed to support your goals and amplify your impact in the AI ecosystem.

# EGI2024 was great!

### EGI 2024

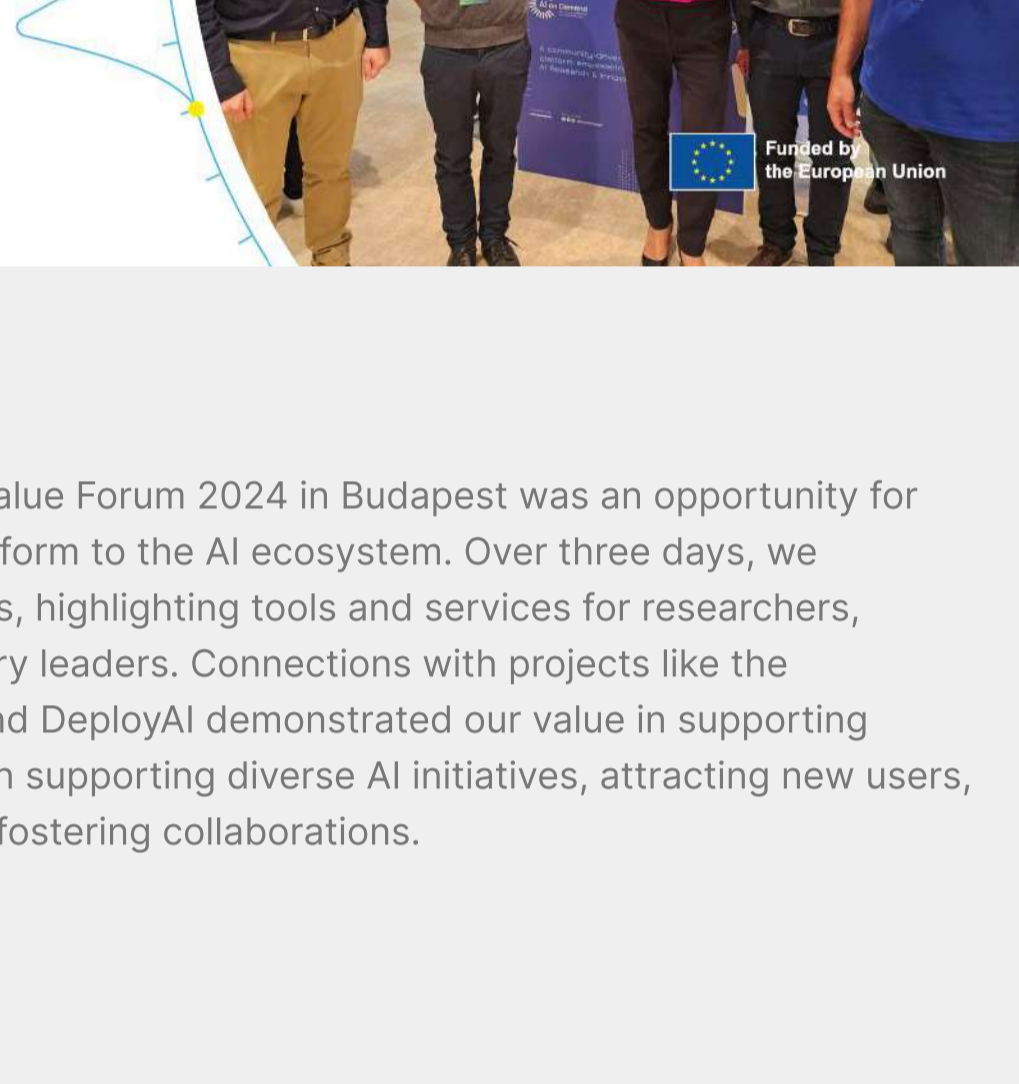

At the EGI 2024 Conference in Lecce, Italy, AloD actively engaged attendees with live demonstrations, an insightful pitch session, and dynamic networking opportunities. Showcasing innovative tools like the Research and Innovation AI Lab (RAIL) and MyLibrary, the team provided hands-on insights into how these resources empower AI research and collaboration. Attendees' feedback was invaluable, helping refine AloD's offerings for the future.

It's a pleasure to be here at the European Big Data Value Forum!

[www.aiod.eu](http://www.aiod.eu)

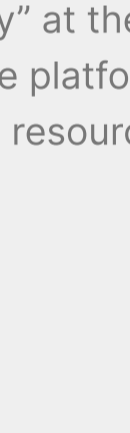

### EBDVF 2024

The European Big Data Value Forum 2024 in Budapest was an opportunity for AloD to showcase its platform to the AI ecosystem. Over three days, we engaged with 40+ visitors, highlighting tools and services for researchers, professionals, and industry leaders. Connections with projects like the TrustWorthy AI Cluster and DeployAI demonstrated our value in supporting diverse AI initiatives, attracting new users, gathering feedback, and fostering collaborations.

## AI, Data, and Robotics Forum - That's a wrap!

**AI on-demand**  
A user guide for the AI research and innovation community  
dr. Ir. Joaquin Vanschoren, Eindhoven University of Technology

### AI, Data, and Robotics Forum

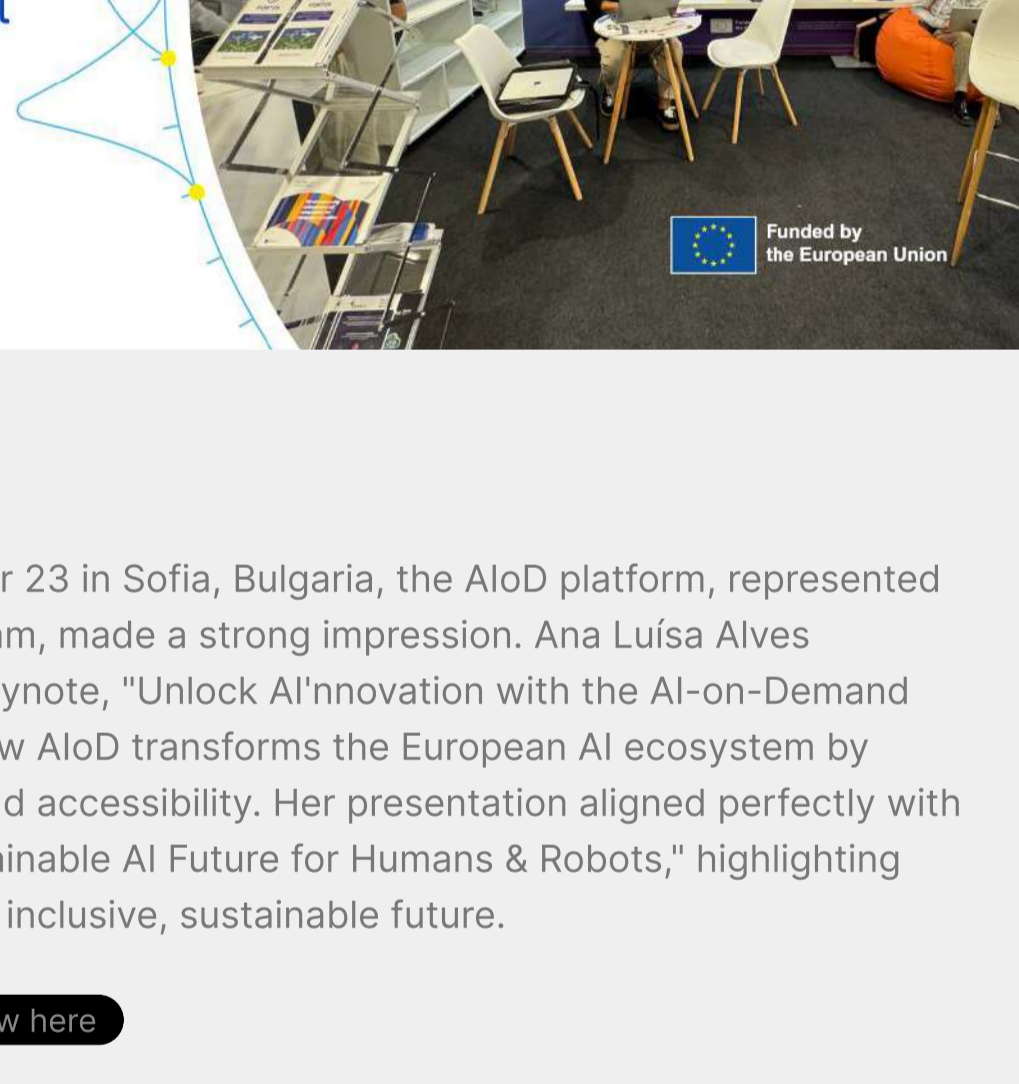

On November 5th, Joaquin Vanschoren, Assistant Professor at Eindhoven University of Technology, led a presentation named "AI-on-Demand: A User Guide for the AI Research and Innovation Community" at the AI, Data, and Robotics Forum 2024. Attendees discovered how the platform connects researchers, innovators, and SMEs with top AI tools, resources, and collaboration opportunities. It was an incredible experience!

Throwback to a very rich day at the Webit Festival

[www.aiod.eu](http://www.aiod.eu)

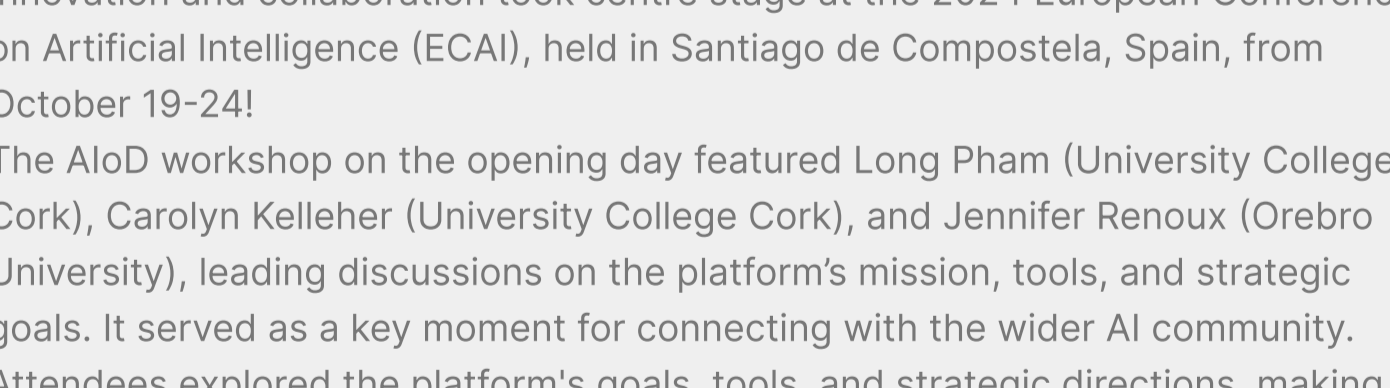

### Webit Festival

At Webit 2024 on October 23 in Sofia, Bulgaria, the AloD platform, represented by the F6S Innovation team, made a strong impression. Ana Luísa Alves delivered a compelling keynote, "Unlock AI'nnovation with the AI-on-Demand platform," showcasing how AloD transforms the European AI ecosystem by fostering collaboration and accessibility. Her presentation aligned perfectly with the event's theme, "Sustainable AI Future for Humans & Robots," highlighting AloD's commitment to an inclusive, sustainable future.

## Relive some of our favourite moments of the ECAI 2024 with us!

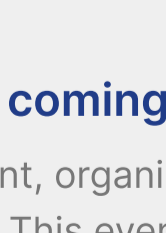

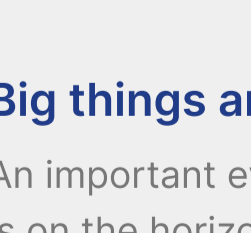

### ECAI

Innovation and collaboration took centre stage at the 2024 European Conference on Artificial Intelligence (ECAI), held in Santiago de Compostela, Spain, from October 19-24!

The AloD workshop on the opening day featured Long Pham (University College Cork), Carolyn Kelleher (University College Cork), and Jennifer Renoux (Örebro University), leading discussions on the platform's mission, tools, and strategic goals. It served as a key moment for connecting with the wider AI community. Attendees explored the platform's goals, tools, and strategic directions, making this workshop a pivotal moment for connecting with the wider AI community.

## Future Events

The AI Data Robotics Association

**Future-Ready**  
On-Demand Solutions with AI, Data, and Robotics

Supported by AI4Europe + Adra-e

**18-19**

February 2025

Sparks Meeting, Brussels

Hybrid event

### Big things are coming!

An important event, organised in collaboration between [AI4EUROPE](#) and [ADRA](#), is on the horizon. This event will bring together ADR projects from 2022, focusing on their results, challenges, and potential future collaborations. "Future-Ready: On-Demand Solutions with AI, Data and Robotics"- Does this seem something you would want to miss out on?

Stay tuned for more!
